		∞ 2 ∞.
25X1	4.	Between noon and 2:30 p.m. on 20 March, there was air activity by single-engine aircraft. The weather was cloudless and very hazy. In addition to single-engine aircraft also, jet fighters at the field.
-	1.	Comment. Justerbog Altes Lager sirfield is still occupied by two fighter
25 <b>X</b> 1		agments.
25X1		The assignment of the II-los observed on 20 March 1954 has not been determined. The unconfirmed information of the installation of a second PKV-45 DF station indicates that the II-los will probably stay at the field for a long period of time. Efforts have been initiated to clarify this question.
